Nite Team 4 is an action game based on a free, time-limited puzzle platformer set in a dystopic version of the future. The storyline revolves around a young girl named Deku who, having survived after the fifth Nite over 9 years ago, wakes up one day to a ravaged and polluted world. As if this were not enough, the girl soon learns that the rest of humanity is enslaved under tyrannical rule by a league of maniacal mecha-maniacs called The League of NITE. In this fabled world of monster hunting, the Night team is well-renowned for their notorious skill as Nite hunters and their associated destructive might. Enemy hunters and [REDACTED] members of The League of NITE are accused of using a particular set of illegal drugs, named Nite, to enhance their mental and physical prowess. Only through the use of Nite can Night hunters survive and win the illegal NITE tournament held once a year, but people started using it for all sorts of reasons; because of this, The League and their corporations have started to demand Nite from its users to obtain an unfair advantage in the NITE tournament. However, because of the extremely high costs and long time delays, production of Nite in volume has been halted and this forces the government to recruit new teams to compete with the Night team. The government also resorts to using forced tests to gather information on the effects of the NITE consumption, and with this information they are planning to change the competition into a safer and more regulated event where teams can use Nite after they have been properly tested for it. One thing is for sure; as the game's hero, Deku, in order to help her allies and save the world, this brave girl won't back down...even against her most bitter enemy...even if it means she has to use her own powers to perform this ultimate mission. This is a very difficult game indeed, with many enemy types, and you'll need to make your way through a fantastic world with over 20 hours of gameplay. **Balls in Winter: Match Reviews, November/December 2018** Angle made 35 winter ball games as of December 8. They included 9 games against multiple opponents (usually 3 per game), 9 matches on the 1st of their 2 monthly competitions, 14 games from the 2nd, and 6 games in the 3rd. Match of the Month: Nov. 24- Angel Premier Cup v Tigres (home) Tigres (AMPD) vs Angel Premier Cup (PNL-91) #18 Angel Premier Cup K-2 now 1-0-5, 4 goals for, 15 for Angle (77') Angel Premier Cup v Tigres The 4th match between the sides this year was a bit of a dull affair, contested by 2 of the 5 top teams in the AMPD: 3-0 win for PNL's #15 (-0) Angel Premier Cup v Tigres The 3rd meeting between PNL-91 and the joint leaders from AMPD. The lads have now won 2 in a row, having led 2-0 in the first & losing 2-1. Both times ended with a stoppage-time equaliser but otherwise this was a pretty straight forward affair for the PNL teams. Angle Curtain • Fairly even affair, each side having struggled to find a way past the other in their previous 3 matches. This time it was PNL who got a fine early goal, from then on the weather (and PNL's converting extra-time strikes) saw them going through. Tigres were 0-1-0 to N/A. • Not entirely sure what the score should read as this game was played in sunny conditions and both sides enjoyed a decent number of half-chances in the opening exchanges. Both teams created chances in the 2nd quarter of the game, PNL hitting the bar twice before Tigres dragged themselves level by half-time. • The 2nd half was perhaps the better of the game, with both sides letting more of the ball. PNL suffered 5 corners and a banana-skin delivery, while it was Tigres who continued to put their foot on the ball too often. Another fine crossfield pass, from Callum Dixon to Phil Smart, set up a goal for Christian Boyd, only to be hacked down by CT Bardowski, for a penalty, which was calmly converted and the Anglos were ahead. It was 0-2 just 3-min
